With over twenty years experience working with EEM as therapist, teacher and published author, Madison is known for creating a relaxed atmosphere, and for taking complicated information and making it fun and easy to digest; she embraces her class and provides total support for the year, not just at the four 4-day classes but in between too.

She also provides an online study group service and a weekly bitesize energy mailing. If that's not enough, there are various one day and weekend workshops in Dorking and central Cardiff, a summer school planned for Spain in June and another in Morocco in September.

***Don't miss this opportunity to study with  
one of Donna Eden's very first students.***
